

Integrated Management Policy

Oceanway conducts its management as a maritime agency with the aim of achieving full satisfaction of shipowners, operators, charterers, and managers of all types of vessels operating in Argentine ports, focusing on managing processes in an environmentally friendly and safe manner for its employees and contractors.

To that end, it considers the implementation and maintenance of a risk-based approach, in accordance with the requirements of ISO 9001:2015, as a top priority, which enables fulfillment of the following commitments:

- Compliance with the legislation applicable to its activities and services, as well as any other voluntarily assumed requirements.
- Continuous improvement of the management system and its performance, aiming to enhance customer satisfaction, control risks, maximize opportunities, and prevent environmental pollution, injuries, and illnesses among personnel and employees.
- Efficient process management, seeking to optimize costs and investments.
