		Bunge Terminal	330,0	10,38
		Glencore Xstorage Terminal	329,4	10,38
SAN PEDRO		Elevator	277,0	10,48
		Pierhead	277,0	10,48

References:

⁽¹⁾ Maximum sailing drafts authorized by Argentine Coast Guard. Issued daily by each Port Commander considering weather forecast. Regardless this information issued officially by Coast Guard daily, it is to be noted that some lower draft has been reported occasionally alongside at pier's edge by loading ships due to silting, depending on particular loading pier and ship's position, always with soft mud bottom. Please ask Agency for details.

⁽²⁾ Depths at zero chart datum. Issued weekly by Argentine Hydrographic Office.

⁽³⁾ Ports with berth restrictions. In case needed please ask Agency for details.

⁽⁴⁾ Argentine Coast Guard restriction due to narrow river turnings.

⁽⁵⁾ Types of cargo:

- Grain and byproducts
- Oil and liquid cargoes
- Liquid chemicals
- Bulk Cargoes
- Steel products

⁽⁶⁾ As per DI-2019-138-APN-ASEC#PNA max arrival draft is 7,00 m + height of river - UKC (0,60)
